## OBJECTIVE

---

With a fresh perspective and a strong desire to embark on a journey to shape the digital landscape as a frontend developer. I'm excited to join the frontend development community.

## Projects

---

### 1. Portfolio

"Beginner's Portfolio: A beginner-friendly frontend website where I showcase my early projects and skills. Developed using HTML, CSS, and JavaScript, it's a simple yet effective way for me to start building an online presence and sharing my learning journey with others."

Github-<https://github.com/Priya-Basnet/responsivePortfolio.git>

Live demo-<https://priya-basnet-portfolio.netlify.app/>

### 2. Sarathi-mental health-focused website

"Sarathi is a responsive web application dedicated to supporting individuals in their journey towards better mental health. As the sole developer, I crafted the frontend interface using HTML and CSS."

Github-<https://github.com/Priya-Basnet/sarathi-mental-health-website.git>

Live demo-<https://sarathi-mental-wellbeing.netlify.app/>
